A few minor edits/tweaks below. What do you think of:

On January 19, 2022, SPPD sent out an CAA section 114 information collection request to 8 entities operating 21 facilities that are subject to the Hazardous Organic NESHAP (HON) and certain other NSPS and NESHAP for chemical manufacturing and polymer production sites. The request contains a questionnaire to gather more information on emissions and processes as well as a limited request for stack testing and fence line monitoring to support reviews of chemical sector rulemakings that are ongoing and scheduled for proposal starting in the December 2022 timeframe.

Im going to add an item for Mike just FYI on the HON 114's.. Let me know if youre ok or if changes are needed.

This week, we sent out a 114 request to 8 entities operating 21 facilities that are subject to the Hazardous Organic NESHAP (HON) and certain other NESHAP for chemical and polymer production sites. The request was for emissions, process, and limited testing to support reviews of chemical sector rulemakings that are ongoing and scheduled for proposal in the December 2022 timeframe.
